# CBNK Quarterly Earnings Grow 13.7 Percent Year Over Year 

April 20, 2022

## Diluted EPS of \$0.71, ROAA of 2.01\%, and ROAE of 20.30\% for 1Q 2022

ROCKVILLE, Md., April 20, 2022 (GLOBE NEWSWIRE) -- Capital Bancorp, Inc. (the "Company") (NASDAQ: CBNK), the holding company for Capital Bank, N.A. (the "Bank"), today reported net income of $\$ 10.2$ million, or $\$ 0.71$ per diluted share, for the first quarter of 2022. By comparison, net income was $\$ 9.0$ million, or $\$ 0.65$ per diluted share, for the first quarter of 2021. Portfolio loans, net, increased $\$ 213.9$ million when compared to the period ended March 31, 2021.
"We started the year with another quarter of outstanding profitability at both the Commercial Bank and OpenSky ${ }^{\circledR}$," said Ed Barry, CEO of the Company and the Bank. "Loan production at the Commercial Bank was strong as new hires and strategic initiatives continue to gain momentum, but growth was negatively impacted by payoffs and selective offboarding of certain lower-quality credit relationships. OpenSky ${ }^{\circledR}$ profitability was stable as updated agreements with service providers delivered savings on data processing costs offsetting anticipated card holder attrition which resulted in a decline in open accounts for the quarter. We are optimistic that our business-wide strategic investments will begin to deliver both increased revenues and lower costs in the coming quarters."
Steven Schwartz, Chairman of the Board of the Company, said, "Despite the detrimental impact of rising interest rates on our mortgage refinance origination volume, we are pleased with the earnings for the quarter. I believe our commercial loan portfolio is well positioned to benefit from the anticipated interest rate increases and our continued focus on a diversified revenue model should maintain our superior results."

## First Quarter 2022 Highlights

Capital Bancorp, Inc.

- Strong Earnings - Continued strong performance by the Commercial Bank and OpenSky ${ }^{\circledR}$ contributed to the first quarter's results. Quarterly net income increased to $\$ 10.2$ million from $\$ 9.0$ million in the first quarter of 2021. Earnings were $\$ 0.71$ per diluted share for the three months ended March 31, 2022 and $\$ 0.65$ for the three months ended March 31, 2021.
- Outstanding Performance Ratios - Return on average assets ("ROAA") and return on average equity ("ROAE") were 2.01\% and 20.30\%, respectively, for the three months ended March 31, 2022 compared to $1.87 \%$ and $22.30 \%$, respectively, for the three months ended March 31, 2021.
- Expanded Net Interest Margin - Net interest margin was $6.79 \%$ for the three months ended March 31, 2022, compared to $5.15 \%$ for the same three month period last year. The margin expansion was primarily driven by increases in the yield on portfolio loans due to the recognition of deferred fees associated with the credit card portfolio, as well as an acceleration in the deferred fees related to forgiven loans in the Small Business Administration Payroll Protection Program ("SBA-PPP").
- Robust Capital Positions - As of March 31, 2022, the Company reported a common equity tier 1 capital ratio of $15.04 \%$ and an allowance for loan losses to total loans ratio of $1.60 \%$, or $1.65 \%$ excluding SBA-PPP loans. Quarter over quarter, tangible book value per common share grew 18.5 percent to $\$ 14.39$ at March 31, 2022.

## Commercial Bank

- Strong Portfolio Loan Growth - Portfolio loans, excluding credit cards, increased by $\$ 179.6$ million, or 14.6 percent, to $\$ 1.4$ billion at March 31, 2022 compared to March 31, 2021. The quarter over quarter growth was mainly due to a 30.3 percent increase in commercial real estate loans of $\$ 131.4$ million, of which $\$ 72.8$ million was owner occupied. Also contributing to the quarter over quarter growth was a 17.2 percent increase in commercial and industrial loans of $\$ 26.1$ million and an 11.0 percent increase in construction real estate loans of $\$ 24.4$ million.
- Growth in Core Deposits and Reduced Cost of Funds - Noninterest bearing deposits increased 6.9 percent compared to March 31, 2021. The $\$ 53.3$ million year over year increase was primarily due to an increase in commercial demand deposits reflecting management's ongoing strategic initiative to improve the deposit franchise. At March 31, 2022, noninterest bearing deposits represented $44.3 \%$ of total deposits compared to $41.4 \%$ at March 31, 2021. Overall, the cost of interest bearing liabilities was reduced 39 basis points, from $0.81 \%$ for the quarter ended March 31,2021 to $0.42 \%$ for the quarter ended March 31, 2022.
- Improving Credit Metrics - Non-performing assets ("NPAs") decreased to 0.28\% of total assets at March 31, 2022 compared to $0.58 \%$ at March 31, 2021 with the disposition of $\$ 3.3$ million in other real estate owned and a reduction in
nonaccrual loans of $\$ 2.8$ million as management continues to focus on reducing non-performing assets. The provision for loan losses increased $\$ 449$ thousand compared to the first quarter of 2021. The current provision for the three months ended March 31, 2022 was $\$ 952$ thousand and was primarily related to the credit card portfolio and the cycling of accounts, not a deterioration in overall credit quality.
- SBA-PPP Loans - SBA-PPP loans, net of $\$ 1.3$ million in unearned fees, totaled $\$ 51.1$ million at March 31, 2022 which was comprised of $\$ 1.7$ million in 2020 originations and $\$ 49.4$ million of 2021 originations. As of March 31, 2022, the Company has obtained forgiveness for $\$ 323.3$ million of SBA-PPP loans.

## Capital Bank Home Loans

- Slowing Mortgage Originations - Origination volumes declined 68.8 percent, to $\$ 110.4$ million, in the first quarter of 2022, when compared to $\$ 353.8$ million in the first quarter of 2021 . The continued steepening of the yield curve in the first quarter of 2022 slowed originations from the year earlier when low interest rates fueled refinance volumes.
- Purchase Volume - While purchase volumes increased to 73.2 percent of total originations for the first quarter of 2022, up from 24.6 percent during the first quarter of 2021, total purchase originations declined by $8.3 \%$ during the same period.

## OpenSky ${ }^{\circledR}$

- Strong Revenue Growth - OpenSky ${ }^{\circledR}$ revenue grew by 47.6 percent to $\$ 20.9$ million for the quarter ended March 31 , 2022 from the same period in 2021 due to an increase in average credit card loan balances as well as an increase in the yield on those credit card loans. The surge in new account originations over the past two years has slowed as government stimulus ended and competition increased. New account originations have reverted to a pace reminiscent of 2019, and is not enough to offset the normal customer lifecycle of the 2020 and 2021 vintages.
- Continued Growth in OpenSky ${ }^{\circledR}$ Loans and Deposits - OpenSky ${ }^{\circledR}$ loan balances, net of reserves, increased by $\$ 40.0$ million to $\$ 123.7$ million compared to $\$ 83.7$ million in the first quarter of 2021. Corresponding deposit balances increased 2.1 percent or $\$ 4.5$ million from $\$ 215.9$ million at March 31, 2021 to $\$ 220.4$ million at March 31, 2022.
- Expense Management Efforts Demonstrate Scale - Key contracts renegotiated during the first quarter of 2022 will engender cost saves and scale benefits throughout the remainder of the year and into the future.

## Operating Results - Comparison of Three Months Ended March 31, 2022 and 2021

For the three months ended March 31, 2022, net interest income increased $\$ 8.9$ million, or 36.4 percent, to $\$ 33.3$ million from the same period in 2021, primarily due to an increase in interest earned on the credit card loan portfolio. The net interest margin increased 164 basis points to $6.79 \%$ for the three months ended March 31, 2022 from the same period in 2021 due in large part to the acceleration of the deferred fees associated with the SBA-PPP loan forgiveness as well as the recognition of deferred fees on the credit card loans. Net interest margin, excluding credit card and SBA-PPP loans, was $3.82 \%$ for the first quarter of 2022 compared to $3.63 \%$ for the same period in 2021. For the three months ended March 31, 2022, average interest earning assets increased $\$ 66.9$ million, or 3.5 percent, to $\$ 2.0$ billion as compared to the same period in 2021, and the average yield on interest earning assets increased 139 basis points. Compared to the same period in the prior year, average interest-bearing liabilities decreased $\$ 55.4$ million, or 5.0 percent, while the average cost of interest-bearing liabilities decreased 39 basis points to $0.42 \%$ from $0.81 \%$.

The provision for loan losses of $\$ 952$ thousand for the three months ended March 31, 2022 was primarily related to growth in the credit card portfolio and the cycling of credit card accounts. Net charge-offs for the first quarter of 2022 were $\$ 881$ thousand, or $0.24 \%$ on an annualized basis of average portfolio loans, compared to $\$ 388$ thousand, or $0.12 \%$ on an annualized basis of average loans for the first quarter of 2021. All of the $\$ 881$ thousand in net charge-offs during the quarter were related to the credit card portfolio.

For the quarter ended March 31, 2022, noninterest income was $\$ 8.3$ million, a decrease of $\$ 5.7$ million, or 40.6 percent, from $\$ 14.0$ million in the prior year quarter. The decrease was primarily the result of reduced mortgage banking revenue.

Net credit card loan balances increased by $\$ 40.0$ million to $\$ 123.7$ million as of March 31, 2022 from $\$ 83.7$ million at March 31, 2021. The related deposit account balances increased 2.1 percent to $\$ 220.4$ million at March 31, 2022 when compared to $\$ 215.9$ million at March 31, 2021. For the three months ended March 31, 2022, OpenSky's ${ }^{\circledR}$ secured credit card accounts decreased by 30 thousand net compared to 74 thousand net new accounts for the same period in 2021 suggesting consumer behaviors may be returning to historical trends after being elevated in response to COVID-19 throughout 2020 and the first half of 2021.

The efficiency ratio for the three months ended March 31, 2022 decreased to $65.12 \%$ compared to $67.11 \%$ for the three months ended March 31, 2021.

Noninterest expense was $\$ 27.1$ million for the three months ended March 31, 2022, as compared to $\$ 25.8$ million for the three months ended March 31,2021 , an increase of $\$ 1.3$ million, or 5.2 percent. The increase was primarily driven by increases in salaries and employee benefits of $\$ 1.7$ million, advertising expenses of $\$ 806$ thousand, and professional fees of $\$ 697$ thousand and were offset by decreases in data processing expenses of $\$ 1.0$ million, loan processing expenses of $\$ 660$ thousand, and occupancy and equipment expense of $\$ 103$ thousand.

## Financial Condition

Total assets at March 31, 2022 were $\$ 2.1$ billion, an increase of $1.5 \%$ from March 31, 2021. Net portfolio loans, which exclude mortgage loans held for sale and SBA-PPP loans, totaled $\$ 1.5$ billion as of March 31, 2022, an increase of 16.3 percent as compared to $\$ 1.3$ billion at March 31, 2021.

While total deposits remained steady at $\$ 1.9$ billion for the periods ended March 31, 2022 and March 31, 2021, the composition of the deposit portfolio shifted, with an increase in noninterest bearing deposits of $\$ 53.3$ million, or $6.9 \%$, when comparing March 31, 2022 to March 31, 2021. At March 31, 2022, there were no listing service or brokered deposits compared to $\$ 86.0$ million at March 31, 2021.

The Company recorded a provision for loan losses of $\$ 952$ thousand during the three months ended March 31, 2022, which increased the allowance for loan losses to $\$ 25.3$ million, or $1.60 \%$ of total loans ( $1.65 \%$, excluding SBA-PPP loans, on a non-GAAP basis) at March 31, 2022. Nonperforming assets were $\$ 6.0$ million, or $0.28 \%$ of total assets, as of March 31 , 2022, down from $\$ 12.1$ million, or $0.58 \%$ of total assets, at March 31 , 2021, and was
comprised solely of nonperforming loans. Included in nonperforming loans at March 31, 2022 were troubled debt restructurings of $\$ 525$ thousand.
Stockholders' equity increased to $\$ 201.5$ million as of March 31, 2022, compared to $\$ 167.0$ million at March 31, 2021. This increase was primarily attributable to earnings during the period of $\$ 41.2$ million which were offset by unrealized losses recorded net of tax on the available for sale securities in the rising interest rate environment creating a $\$ 7.8$ million reduction in accumulated other comprehensive income during the period. As of March 31, 2022, the Bank's capital ratios continued to exceed the regulatory requirements for a "well-capitalized" institution.

## ABOUT CAPITAL BANCORP, INC.

Capital Bancorp, Inc., Rockville, Maryland is a registered bank holding company incorporated under the laws of Maryland. The Company's wholly-owned subsidiary, Capital Bank, N.A., is the fourth largest bank headquartered in Maryland at March 31, 2022. Capital Bancorp has been providing financial services since 1999 and now operates bank branches in five locations in the greater Washington, D.C. and Baltimore, Maryland markets. Capital Bancorp had assets of approximately $\$ 2.1$ billion at March 31, 2022 and its common stock is traded in the NASDAQ Global Market under the symbol "CBNK." More information can be found at the Company's website www.CapitalBankMD.com under its investor relations page.

## FORWARD-LOOKING STATEMENTS

This earnings release contains forward-looking statements. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. Any statements about our management's expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "anticipate," "believes," "can," "could," "may," "predicts," "potential," "should," "will," "estimate," "plans," "projects," "continuing," "ongoing," "expects," "optimistic," "intends" and similar words or phrases. Any or all of the forward-looking statements in this earnings release may turn out to be inaccurate. The inclusion of forward-looking information in this earnings release should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. Our actual results could differ materially from those anticipated in such forward-looking statements. Accordingly, we caution you that any such forward-looking statements are not a guarantee of future performance and that actual results may prove to be materially different from the results expressed or implied by the forward-looking statements due to a number of factors. For details on some of the factors that could affect these expectations, see risk factors and other cautionary language included in the Company's Annual Report on Form 10-K and other periodic and current reports filed with the Securities and Exchange Commission.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements: changes in general economic, political, or industry conditions; geopolitical concerns, including the ongoing war in Ukraine; the magnitude and duration of the COVID-19 pandemic and related variants and mutations and their impact on the global economy and financial market conditions and our business, results of operations, and financial condition; uncertainty in U.S. fiscal and monetary policy, including the interest rate policies of the Board of Governors of the Federal Reserve System; inflation/deflation, interest rate, market, and monetary fluctuations; volatility and disruptions in global capital and credit markets; the transition away from USD LIBOR and uncertainty regarding potential alternative reference rates, including SOFR; competitive pressures on product pricing and services; success, impact, and timing of our business strategies, including market acceptance of any new products or services; the impact of changes in financial services policies, laws, and regulations, including those concerning taxes, banking, securities, and insurance, and the application thereof by regulatory bodies; cybersecurity threats and the cost of defending against them, including the costs of compliance with potential legislation to combat cybersecurity at a state, national, or global level; and other factors that may affect our future results.

These forward-looking statements are made as of the date of this communication, and the Company does not intend, and assumes no obligation, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events or circumstances, except as required by law.
